Dry Fly Innovations Report

Dear Fly Fishing Enthusiasts

Wow, I cannot believe it is November already. It seems like I was just fly fishing the South Fork of the Boise River with a big juicy bullet head hopper and landing fish wading in my shorts!

I think those days are gone for a while; wading in shorts and throwing big patterns. Now comes the fun part of dry fly fishing, serving Blue Wing Olives on a #22 to giant, surfacing rainbows or browns. By now the crowds have thinned out a little bit, and you can narrow down your selections of flies that you are going to cast at fish. We at Dry Fly Innovations call this season "fishing with microscopic flies," because any fly you choose now will be small and minute.

We want to take a chance to thank all of you for supporting us at the Idaho Fly Fishers meeting that took place on October 15; it was great to see you in the audience attending our presentation. We would also like to thank the Idaho Fly Fishers and The Women's Fly Fisherman of Idaho for allowing us to come in and present to your members. We had a great time presenting and hopefully you walked away with a little more knowledge on dry fly fishing. Dry Fly Innovations will be having a booth at the Boise School Districts Holiday Bizarre which is taking place at 8731 W Salt Creek St. It is at West Junior High on November 14, and it is located just behind the Boise Schools district office off Victory. The holiday bizarre will be going on from 8am-4pm.

The Women's Fly Fishers of Idaho is having a fund raiser that is for a great cause and it is called

"Casting for Recovery." Dry Fly Innovations has donated flies that will go with a custom made rod from one of the members and we had a chance to look at the pole and feel it; all I can say is that rod is gorgeous. She did a great job and it looks

awesome. Raffle tickets cost \$5 and the winner of the drawing will receive the rod, flies, and a matching reel (equipped with pink line). So please if you would like to help out with their campaign please visit our website

www.dryflyinnovations.com or feel free to call us. We have been given some

tickets to distribute, and with your help, we can make a dream come true for someone who could truly benefit from a week of fly fishing.

I would like to conclude this newsletter by reminding everyone that the fly fishing season is not done yet. It has only just begun! This is a great time to keep fishing and having fun out on our local waters. The South Fork of the Boise River is looking prettier every day and the Owyhee River is still a possibility. Put some warm clothes on, grab your gloves, and put on the heaviest set of waders you own and come join Dry Fly Innovations in the "fishing with microscopic flies"

because we will be out there, I guarantee it.

Your fellow Fly Fishing Enthusiast,

Geoff Brumley
